

HADIAK PRAKTIKUM CLOUD COMPUTING PERTEMUAN KE-6

The screenshot shows the GitHub interface for the repository 'calvinawuysan / CloudPHP'. The repository has 1 commit, 0 stars, and 0 forks. The commit history shows a single commit by 'calvinawuysan' 21 minutes ago, with files: test, .gitattributes, README.md, app.yaml, composer.json, index.php, and phpunit.xml.dist. The README.md file is open, showing the repository name and a link to the code. The terminal at the bottom shows the command 'cat index.php' and the output: 'Calvina Wuysan, 51018003, Sistem Informasi 2018 '.

```
vinac2625@cloudshell:~/CloudPHP (tribal-sign-309101)$ cat index.php
<?php

echo "Calvina Wuysan, 51018003, Sistem Informasi 2018 ";
vinac2625@cloudshell:~/CloudPHP (tribal-sign-309101)$
```

The screenshot shows the Google Cloud Platform console for the project 'tribal-sign-309101'. The 'App Engine' section is active, showing a 'Hello World' app. The 'Terminal' tab is open, displaying the deployment process. The terminal output shows the deployment of the 'Hello World' app to the 'tribal-sign-309101' project. The deployment is successful, and the app is now live at the URL 'https://tribal-sign-309101.df.r.appspot.com'.
